**DENTAL IMPLANTS
PAYMENT PLAN**

Payment Plan for your Dental Implants

Dental implants are becoming the treatment of choice for a missing tooth. Now that you have made the decision to proceed with the implant, please see below for the costs (and what is included in this) and payment options.

Single implant/ Implants at different sites.

Cost per implant: KES 200,000/- for 1st implant or each implant at different sites or at different visits.

This includes all visits, materials and equipment from the placement of the implant (1st stage) and then restoration with a crown on top (2nd stage), with the necessary reviews.

The price includes provision of a single tooth partial denture for the gap (if required), while awaiting integration of the implant, before the final restoration phase. It also includes the cost of pre-operative antibiotic prophylaxis.

Not included in the price: Initial consultation, any required imaging/radiographs, any bone grafting materials required, any other medication prescribed (apart from ones mentioned above) and any over the counter items such as toothbrushes, mouthwashes to take home, cleaning tablets for the dentures etc.

Each additional implant at the same site

Cost: KES 170,000/- for each additional implant at the same site.

This includes all visits, materials and equipment from the placement of the implant (1st stage) and then restoration with a fixed bridge on top (2nd stage), with the necessary reviews. The price includes provision of a partial denture for the gap (if required), while awaiting integration of the implant, before the final restoration phase. It also includes the cost of pre-operative antibiotic prophylaxis.

Not included in the price: Initial consultation, any required imaging/radiographs, any bone grafting materials required, any other medication prescribed (apart from ones mentioned above) and any over the counter items such as toothbrushes, mouthwashes to take home, cleaning tablets for the dentures etc.

Payment Plan

1. 50% of payment is required prior to placement of the implant after the first consultation and decision to start the implant treatment (1st stage).
2. Balance of 50% to be paid prior to the restorative phase, (2nd stage) which will be approximately 4 months after starting the 1st stage.
