***Professional, Highly Acclaimed  
Plastics procedures  
Available in Kenya.***

If you have tried enough dieting, exercise, beauty products and still don't feel whole, plastic surgery is ideal for you.

### **What is Plastic Surgery?**

Plastic surgery aims to refine, reshape, restore and repair to help you become whole.

### **Facts about Plastic Surgery**

- They are safe procedures with very minimal scars and post-operative pain
- Cost will depend on the areas to be worked on
- The most common procedure in women is breast augmentation and in men it is nose hops
